Professional Summary

Computer Science Engineering undergraduate and enthusiastic learner with technical skills in software development, web technologies, and database systems. Proficient in C++, Python, PHP, JavaScript, and MERN stack development, with hands-on experience in Android application development and IoT-based systems. Possess a understanding of Data Structures, Object-Oriented Programming, DBMS, and Computer Networks. Skilled in problem-solving, debugging, Git-based version control, and modern development and UI design tools. (CGPA: 9.3/10.0).

Technical Skills

Languages: JavaScript, Java, C++, SQL, HTML5, CSS

Frontend: React.js, Tailwind CSS, Responsive Web Design

Backend: Node.js, Express.js

Databases: MySQL, MongoDB (Database Design, Query Optimization, CRUD Operations)

Tools: Git, GitHub, VS Code, Pycharm

Designing: Figma, Canva.

Education

Diploma In Information Technology

June 2024

Government Polytechnic Kolhapur

Percentage : 91.59

Bachelor of Engineering (B.E.) in Computer Science

Expected May 2027

Pimpri Chinchwad College of Engineering and Research, Ravet

CGPA: 9.3 / 10.0

Technical Projects

Club Connect – Centralized Club Management System

[GitHub](#)

Jan 2025 – Sep 2025

React.js, Javascript, CSS, HTML5, CSS3, MongoDB

- Designed and developed a centralized club management system with features like event registration, club management, notifications, and an admin dashboard to streamline operations and improve student engagement.
- Created intuitive and responsive UI/UX prototypes using Figma, applying usability principles (consistency, feedback, error prevention) to ensure seamless navigation, real-time interaction, and cross-device compatibility.
- Improved performance using lazy loading and code splitting, reducing load time by 40%.

STRUCTICON - Civil Firm Website

[GitHub](#)

Aug 2025 – Dec 2025

HTML5, CSS3, JavaScript, React.js, Node.js, and MongoDB,

- Developed a full-stack website for a civil engineering firm, showcasing services, projects, and company profile with a professional and responsive design.
- Built the application using HTML5, CSS3, JavaScript, React.js, Node.js, and MongoDB, ensuring smooth frontend-backend integration and dynamic content management.
- Implemented features like project portfolio display, contact forms, and performance optimization, improving user experience, accessibility, and client interaction.

CampusMitra – Student support Management System

[GitHub](#)

Jan2026 – Apr 2025

React.js, Node.js, Express.js, MongoDB, NLP APIs, Multilingual Integration

- Developed “Campus Mitra”, a smart multilingual campus chatbot to assist students with real-time information on events, navigation, and campus services.
- Designed and implemented an interactive and user-friendly interface, enabling seamless communication through AI-based chatbot interactions and multilingual support.
- Enhanced student experience by providing quick query resolution, improved accessibility, and efficient decision-making through automated responses and intuitive design.

Technical work Experience

Web Development Intern – MathTech Thinking Foundation [GitHub](#) Jan 2026 – March 2026

- Led a team of 4 developers to design and develop the official website of the organization.
- Built and maintained full-stack web applications using HTML5, CSS3, JavaScript, React.js, Node.js, and MongoDB.
- Collaborated with team members to implement responsive UI/UX and ensure seamless user experience.
- Managed task distribution, code reviews, and project timelines as a team lead.
- Developed dynamic and scalable backend services and integrated them with frontend components.
- Ensured website performance optimization, cross-browser compatibility, and mobile responsiveness.

Leadership Experience

Technical Head – PixelCraft Animation Club, PCCOE&R Aug 2025 – Jan 2026

- Served as Head of Technical Team, managing a 4-member team, and responsible for leading technical initiatives, managing creative and development workflows,
- Organized web development workshops and animation competitions with 100+ participants.

Treasurer– Ccube Club, PCCOE&R Aug 2025 – Jan 2026

- Served as Treasurer of the C-Cube Club, responsible for managing budgets, tracking expenses, and ensuring transparent financial operations. Actively contributed to planning and organizing social, educational, and community-oriented activities
- Collaborated with team members to coordinate events efficiently while promoting social responsibility, teamwork, and community engagement.

Certifications & Achievements

Certifications:

- Database Programming with SQL – Oracle Academy (2025)
- MongoDB – MongoDB Academy (2025)
- Full Stack Web Development – Apna Collage(2025)
- Introduction to prompt engineering with GitHub Copilot - simplelearn
- Introduction to SQL -Sololearn

Achievements:

- Participation – TechFesta at PICT(Technical Project Competition).
- Participation – InnovationEXPO at PCCOER(Technical Project Competition).
- Participation – MIT-ADT AI Grand Challenge 2026(Technical Project Competition).

Soft Skills

Soft Skills: Leadership, Team Collaboration, Communication, Problem Solving, Time Management, Adaptability
